

# CORROSION PROTECTION

## COLD GALVANISING PAINTS

### GALMAX™ 90 COLD GALVANISING PAINT

Weld through primer. 99% zinc purity. 90% zinc in dry film. Matt finish.

Ideally suited to touch-up welds and damaged structures or components. Protects clean steel in the same manner as hot dip galvanising, ie, by cathodic reaction.

**Exceptional long-term protection against rust and corrosion.**

Becomes indistinguishable to normal weathered galvanising when top-coated with with *GalMax™ SG Silver*.

Can also be top-coated with *GalMax™ NPR Coloured Galvanising Paint*.

#### GalMax™ 90 Sprayable

PART NO.	SIZE
CT-CG-400	400g Aerosol
CT-CGS-1L	1 Litre
CT-CGS-4L	4 Litres

#### GalMax™ 90 Brushable

PART NO.	SIZE
CT-CGB-1L	1 Litre
CT-CGB-4L	4 Litres

### GALMAX™ 93 PREMIUM COLD GALVANISING PAINT

Zinc rich weld through primer.

99% zinc purity. 93% zinc in dry film.

Exceptional long-term protection against rust and corrosion. **Passes ASTM B117-07 168hr Salt Spray Test - no defects.**

For touch-up welds and damaged structures and components. Protects clean steel in the same manner as hot dip galvanising, ie, by cathodic reaction.

**TIP** • Top coat with *GalMax™ Silver* and *GalMax™ NPR Coloured Gal* ranges for a double-guarantee of long-term protection.

#### RECOMMENDED FOR USE ON:

- Cooling Towers ► Roads and Bridges
- Fencing and Piping ► Metal Fabrication
- Structural Steel ► Hot Dip Gal Repairs
- Marine and Offshore Rigs

PART NO.	SIZE
CT-GMCG-500	500g Aerosol

## SILVER GALVANISING PAINTS

### GALMAX™ SG 3-IN-1 SILVER GALVANISING PAINT

**Exceptional rust and corrosion protection.**

Weathers to the same colour as hot dip galvanising. Fast drying.

Suits touch-up welds and damaged structures or components.

Can be used extensively in the maintenance and restoration of damaged or worn galvanised metal.

**TIP** • Double-guarantee your corrosion protection on steel and iron structures or equipment by priming surfaces first with *GalMax™ 90 Cold Galvanising Paint* containing 90% zinc in dry film.

### GALMAX™ 2SG 2-IN-1 BRIGHT SILVER GALVANISING PAINT

**Galvanising repair metallic paint.**

Colour matches perfectly to galvanised surfaces. Possesses similar weathering characteristics. Inhibits corrosion on ferrous metals.

Dries to the touch in just 5 minutes. Ideal for the touch-up repair of all galvanised substrates.

**TIP** • For longer lasting protection, prime the surface first with *GalMax™ 90 Cold Galvanising Paint* before applying as a final top coat.

PART NO.	SIZE
CT-2SG-400	400g Aerosol

### GALMAX™ SG ALL-IN-1 PREMIUM BRIGHT SILVER GALVANISING PAINT

High performing aluminium rich metallic spray. Genuine all-in-one quick drying primer/top coat.

Exceptional long-term protection against rust and corrosion.

**Fuses to and protects steel and ferrous metals exposed to severe or corrosive environments.**

For use extensively in the maintenance and restoration of damaged or worn galvanised metal.
