

TITAN ATF D3

A multifunctional ATF for Passenger Cars and Commercial Vehicles requiring a Dexron® III specification.

Description

TITAN ATF D3 is a Multifunctional Automatic Transmission Fluid, providing longer life and smoother gear shifts. Recommended for Passenger Cars and Commercial Vehicles requiring a Dexron® III specification. Automatic Transmission Fluid is specially formulated to conform to GM and Ford specifications. Supercedes Dexron®. Not suitable where Dexron VI is called for. Suitable for use for the following applications: ATF Dexron® III Ford MERCON® Allison C-4 Caterpillar TO-2

Application

To obtain the full benefits of this product please drain and refill the application. However this product is compatible with mineral Dexron III fluids.

Advantages/Benefits

- Compatible with conventional Dexron III transmission fluids
- Compatible with conventional Dexron III transmission fluids
- Excellent thermal and chemical stability due to the superior viscometrics
- Excellent thermal and chemical stability due to the superior viscometrics
- Helps reduce oil temperature in severe applications

- Helps reduce oil temperature in severe applications
- Improves seal life due to good thermal stability. Improves transmission life
- Improved seal life due good thermal stability- Improves transmission life
- Improved shift on cold start and at standard operating temperatures
- Improved shift on cold start and at standard operating temperatures
- Offers excellent gear durability
- Offers excellent gear durability
